Re: FCC cover letter for KILO2400ABS

To whom it may concern:

Sig Sauer, Inc. Electro-Optics Division is seeking an original certification for the Model KILO2400ABS Laser Rangefinder under FCC 15.247.

The FCC ID number is 2AK3B001.

The KILO2400ABS is a battery powered, handheld IR laser rangefinder with an embedded Applied Ballistics calculator, onboard environmental sensors and Bluetooth for synchronizing custom profiles from a downloadable ballistic app for iOS or Android smartphones. The product features SIG SAUER's proprietary LightWave DSP engine featuring HyperScan with RangeLock for reaching targets out to 2 miles at a 4 times per second scan rate.

Sincerely,

Don Cramer
Electronics Engineer
