

PRECISION RIFLE 101

An Intro to Long Range Shooting

NOVEMBER 11 - 14 2019 | YAKIMA, WA

JOURNEY TO THE REWARDING DISCIPLINE OF PRECISION SHOOTING

Consider this an introduction to the life-long pursuit of mastering the union of the mind and body, and the science of bullets in flight.

HOLISTIC AND SYSTEMATIC APPROACH TO TRAINING

Our process is one that will provide you with different opportunities to learn a skill through a combination of lecture, demonstration, and application of skills.

| TAUGHT BY CAYLEN WOJCIK

An industry leading subject matter expert in the art and science of precision shooting.

What You'll Learn:

- Rifle and Optic Set-Up
- Care and Cleaning
- Trajectory Validation
- The Circle of Components
- Challenging Shooting Drills
- Introduction to Wind Reading
- The Fundamentals of Marksmanship
- Understanding Trajectory Variables
- Intro to Alternate Shooting Positions
- Intro to Internal and External Ballistics

The Gear:

You don't need the latest and greatest gear that everyone in the competitive world is using to be successful in precision shooting!

Bring what you have, and use this training course as an opportunity to see what really works for you.

Cost: \$800 Tuition + \$100 Range Fee
