Hello,  
Thank you for ordering the Ingenuity Powder Meter.  
Some of you have been waiting some time for your order to become available and I have recently received several emails inquiring for a status update so I thought it best to go ahead and address everyone that has been waiting ever so patiently.  
I have been way over the ETA of 45 days for some of your orders and constantly trying to improve delivery dates this year. Orders continue to pour in from all over the world and I am humbly grateful but it has been a struggle to expand at the same rate.  
I added several more machines as of late this year to help with getting orders out faster, especially with the addition of the new complete system coming out soon, but it takes some of my time and attention away from current production to get the new machines set up and lined out.  
All current Powder Meter orders should be caught up next month.  
I apologize for the delay and thank you for your understanding.

Paul,  
Ingenuity Precision

Hello,

Thank you for ordering the Ingenuity Powder Meter.

Some of you have been waiting some time for your order to become available and I have recently received several emails inquiring for a status update so I thought it best to go ahead and address everyone that has been waiting ever so patiently.

I have been way over the ETA of 45 days for some of your orders and constantly trying to improve delivery dates this year. Orders continue to pour in from all over the world and I am humbly grateful but it has been a struggle to expand at the same rate.

I added several more machines as of late this year to help with getting orders out faster, especially with the addition of the new complete system coming out soon, but it takes some of my time and attention away from current production to get the new machines set up and lined out.

All current Powder Meter orders should be caught up next month.

I apologize for the delay and thank you for your understanding.

Paul,

Ingenuity Precision

Just making sure - I've been without a powder machine longer than I expected and want to get back to shooting.

Hello, I'm following up on my order. I will be checking in periodically until MY order ships. How much longer will I be waiting? I am over 100 days.
