

# THLR HYBRID

MINOX ZP5 5-25x56

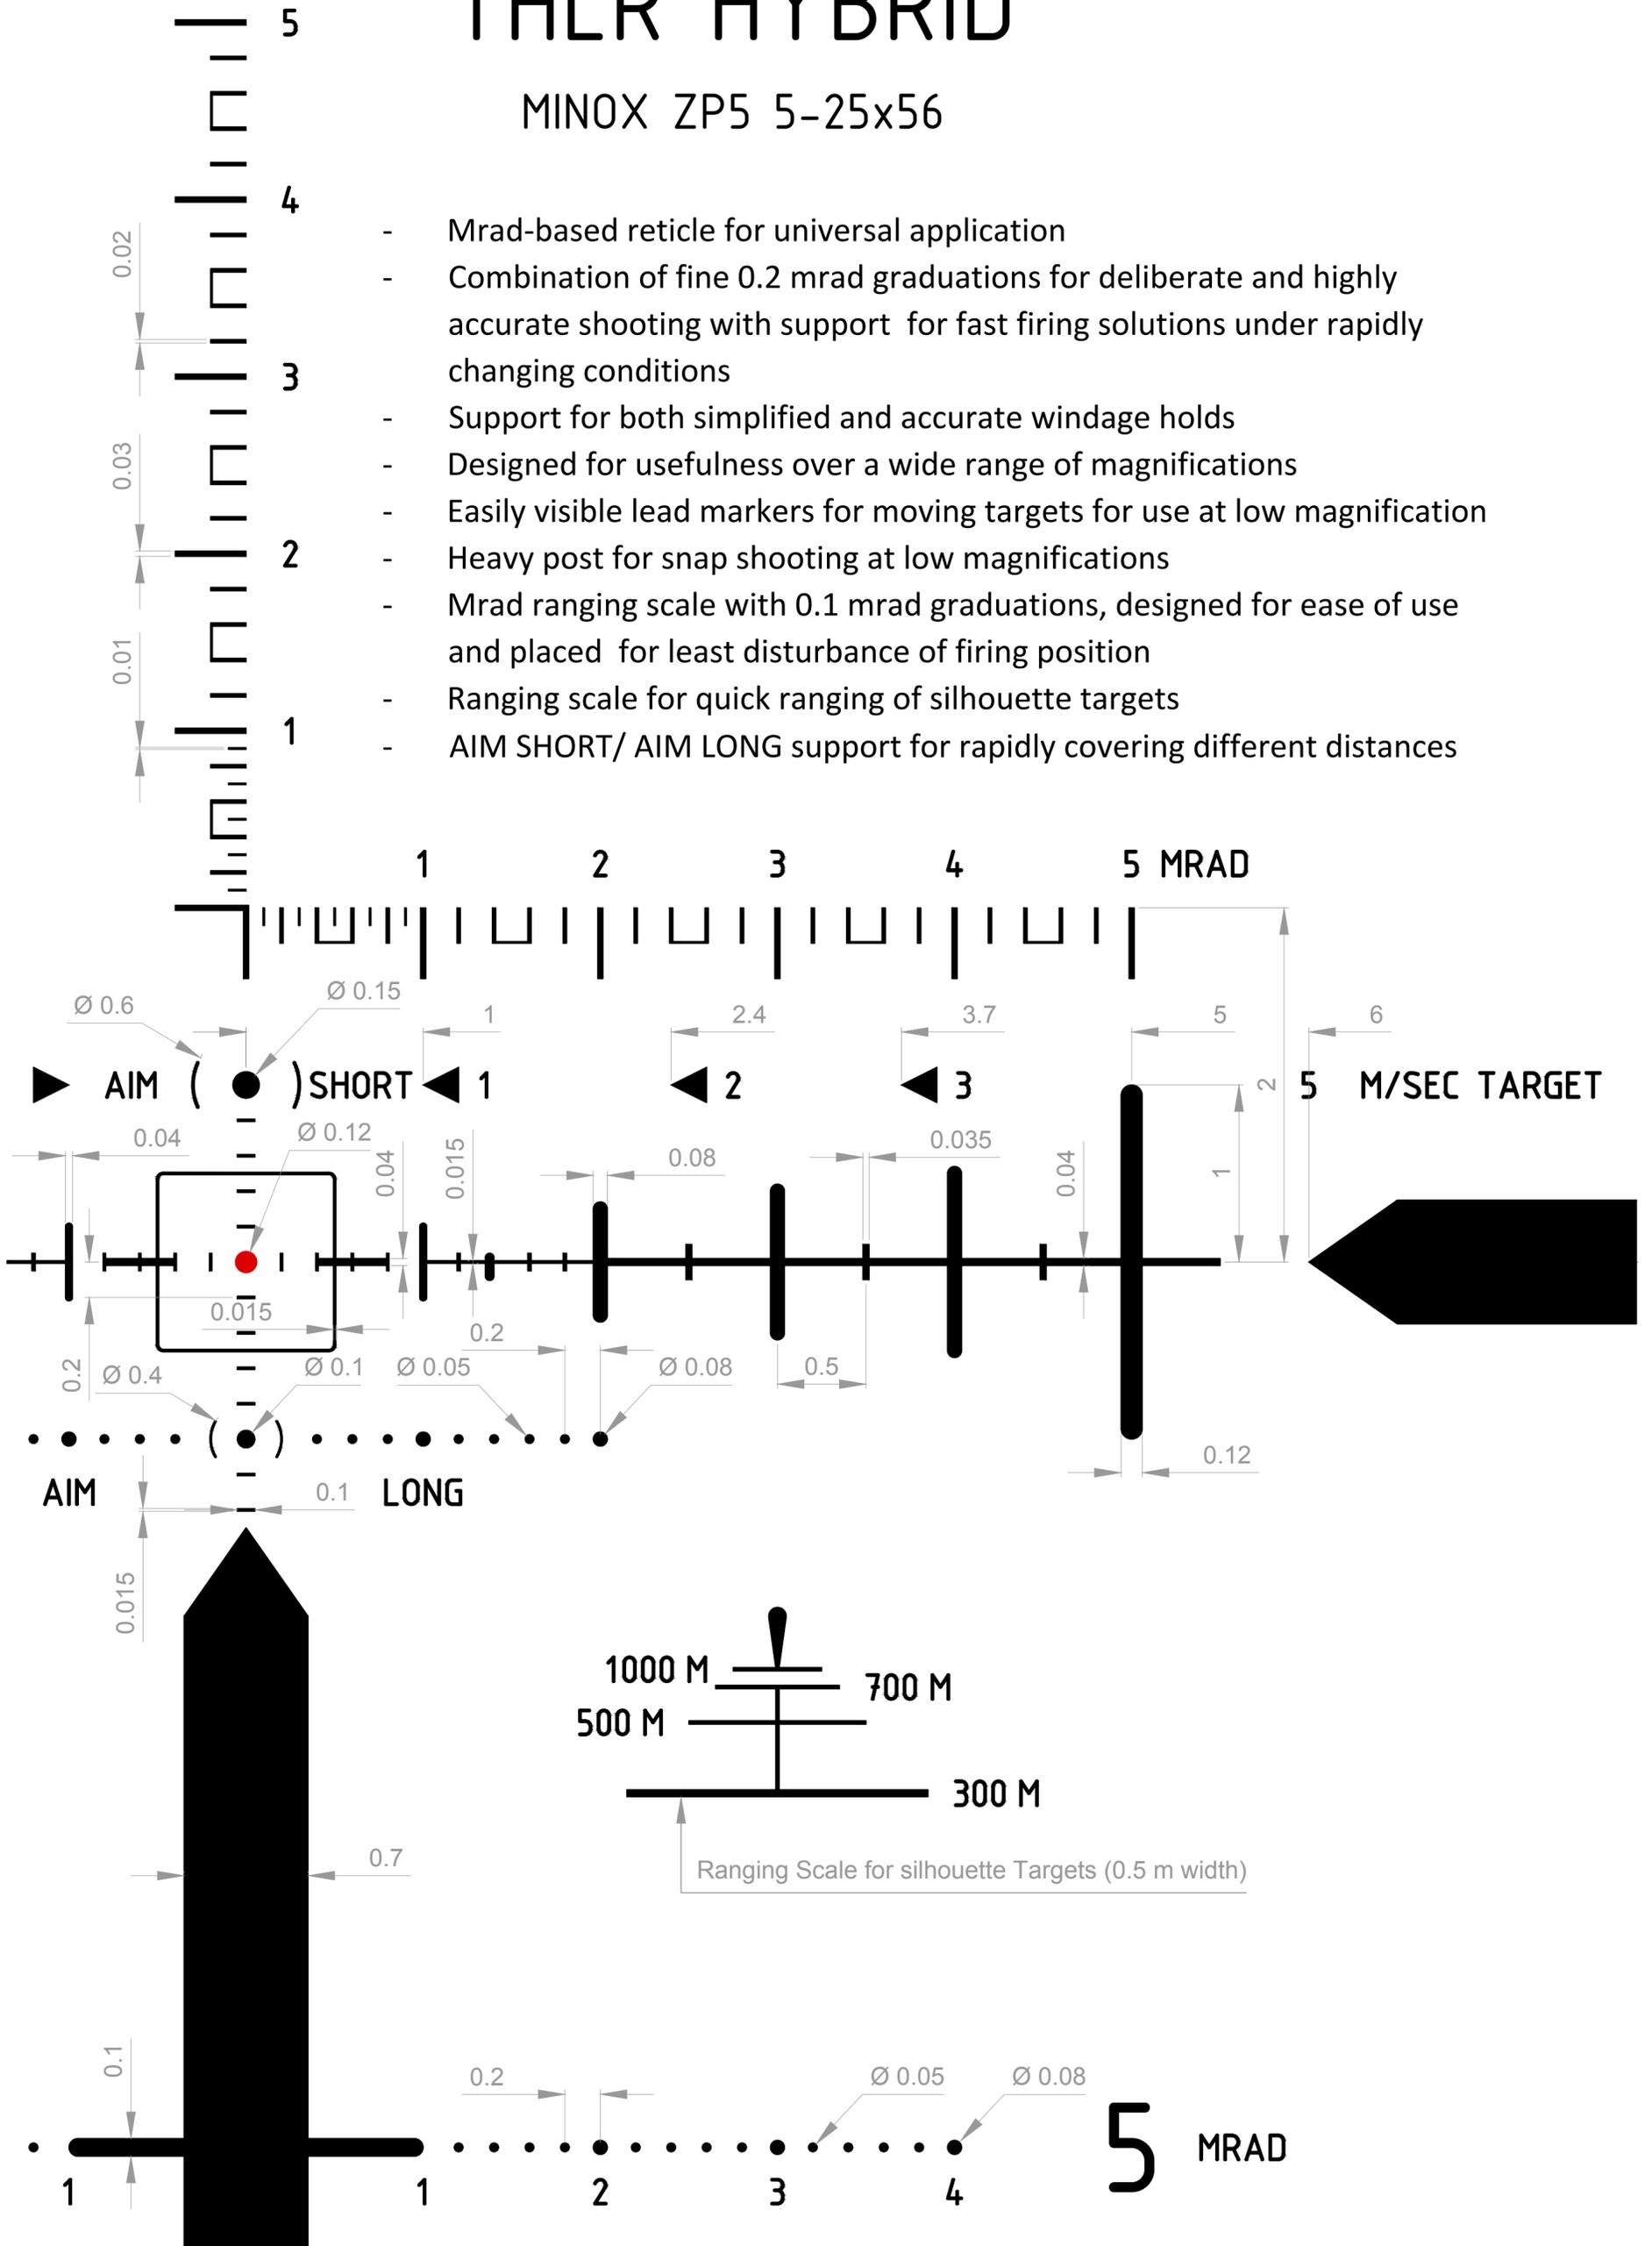

all dimensions in mrad - 1 mrad = 10cm/100m

# THLR HYBRID

MINOX ZP5 5-25x56

- Mrad-based reticle for universal application
- Combination of fine 0.2 mrad graduations for deliberate and highly accurate shooting with support for fast firing solutions under rapidly changing conditions
- Support for both simplified and accurate windage holds
- Designed for usefulness over a wide range of magnifications
- Easily visible lead markers for moving targets for use at low magnification
- Heavy post for snap shooting at low magnifications
- Mrad ranging scale with 0.1 mrad graduations, designed for ease of use and placed for least disturbance of firing position
- Ranging scale for quick ranging of silhouette targets
- AIM SHORT/ AIM LONG support for rapidly covering different distances

all dimensions in mrad - 1 mrad = 10cm/100m
