

Thanks for your interest.

Our two-day Precision Rifle Course places heavy emphasis on the fundamentals of marksmanship, with the goal of predictable, repeatable precision and accuracy. You will receive lots of one-on-one ground instruction from Marine Snipers and Marine Sniper Instructors.

We start with an initial evaluation of your marksmanship fundamentals. Then, through classroom and live fire instruction we correct deficiencies, instill confidence and make the student proficient with the rifle out to 1,000 yards.

You will leave the course with a solid foundation in the fundamentals, having demonstrated them for two full days of shooting. You will have the knowledge to build data with any rifle and engage targets in variable conditions, with a full understanding of how those conditions affect the flight of your bullet.

What makes our Course unique is that we provide a social learning environment. You will engage the instructors and other students at the beginning and end of each firing day, as we all stay in the Lodge, eating and socializing there. The feedback we've received from our past hundreds of students all confirm that the social aspect of our Course was as enjoyable and as valuable as the instruction received.

Our students come from all backgrounds and levels of expertise. We have trained first-time rifle shooters, and we have trained professional law enforcement shooters at this Course.

Should you decide to secure a seat for yourself, contact me immediately, as seats are filled at a surprisingly rapid rate. We book full months in advance. I am not looking for your payment until January of the training year, but your word and commitment gets you penciled into the seat.

Refunds are only offered if training is canceled by the Course, Lodge, or Range due to unforeseen or tragic conditions. Once you have a seat, it's yours to fill.

I am attaching an information sheet and an application in this, or in a follow-on email. Return the application to me by mail to secure your seat. I will then contact you in January to secure your payment.

Thanks again for your interest. Hope you can join us at Alaska Precision Rifle Course.

Marc Taylor  
Marine Scout Sniper Instructor, Founder of Alaska Precision Rifle Course.
