

# PRECISION RIFLE 201

TAKING THE NEXT STEP

APRIL 13-15 2020

YAKIMA, WA

## ADVANCED COURSE STUDENT PREREQUISITES

We expect you to have a firm grasp on the fundamentals of marksmanship and rifle setup prior to taking this course.

## 201 HOLISTIC AND SYSTEMATIC APPROACH TO TRAINING

A deeper look into external ballistics phenomenon such as Earth Based Effects, Gyroscopic Drift, and Aerodynamic Jump and where these really matter.

## TAUGHT BY CAYLEN WOJCIK

An industry leading subject matter expert in the art and science of precision shooting.

## What You'll Learn:

- Making a surgically precise wind call.
- Dissecting alternate shooting positions and reducing your wobble-zone.
- Mechanics drills, focusing on reducing malfunctions and manipulation of your rifle.
- Incorporating movement into your shooting positions.
- Applying hold-over and hold-under techniques.
- Mindset, and the mental process for making the go/no-go decision for a shot.

## The Gear:

You don't need the latest and greatest gear that everyone in the competitive world is using to be successful in precision shooting!

Bring what you have, and use this training course as an opportunity to see what really works for you.

**Cost:** \$675 Tuition + \$75 Range Fee
