

# **What's New in 2019 at Sniper's Hide**

What's New in 2019, we are back in full swing so we wanted to drop you a short note to help you navigate the site. We will not make this a habit, the Newsletters will be far and few between.

### ***The Sniper's Hide Edition Saber M700 from Ashbury Precision Ordnance***

I wanted a rifle I could recommend to students and followers that was a turnkey system. Over the years we would tell students to get the Ruger RPR, the Tikka T3x, etc, but we found ourselves upgrading them. They are great entry level rifles but when it was all said and done, most guys were ending up with \$2400 variants due to the changes we'd recommend. This rifle has been

Why the Remington 700, because it's the Chevy 350 of rifle actions. Ashbury Precision Ordnance employs a team of former 2112 Armorers who take these barreled actions and clean them up, upgrade the trigger, and then test for accuracy. APO Rifles flat out shoot thanks to the attention to detail they put into the rifle. They have an upgrade path either from APO, or

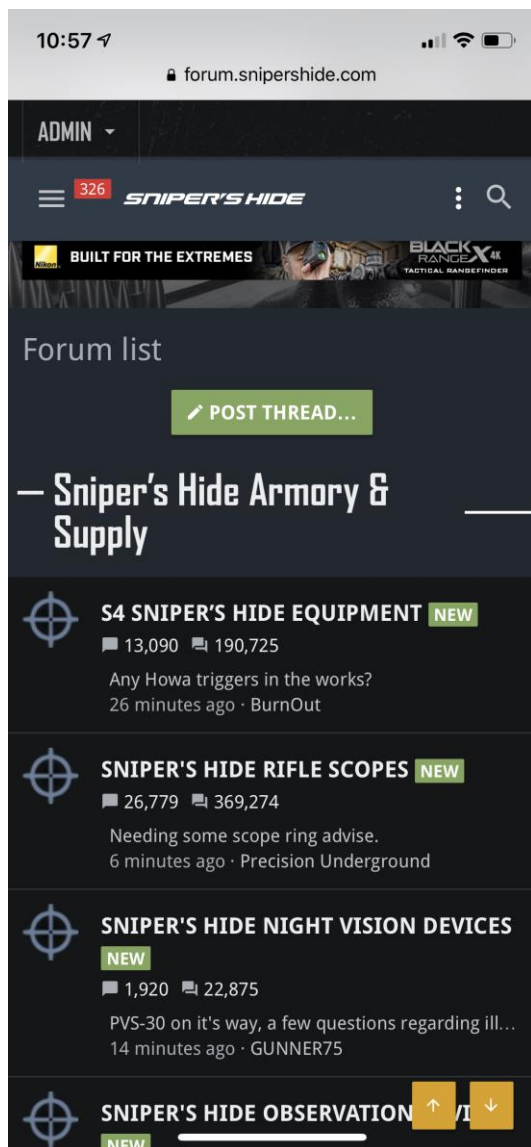

spec'd to meet the need of the precision rifle shooter, from both a training and competition standpoint. Retail for this rifle is \$1950, as seen without scope or bipod. [Datasheet](#)

you can take them to your favorite gunsmith and the sky is the limit. Finally, I looked at it from a resale value, the APO Saber Chassis is modular, by pairing it with a Remington 700 you maintain your value over time.

## In the Sniper's Hide Forum

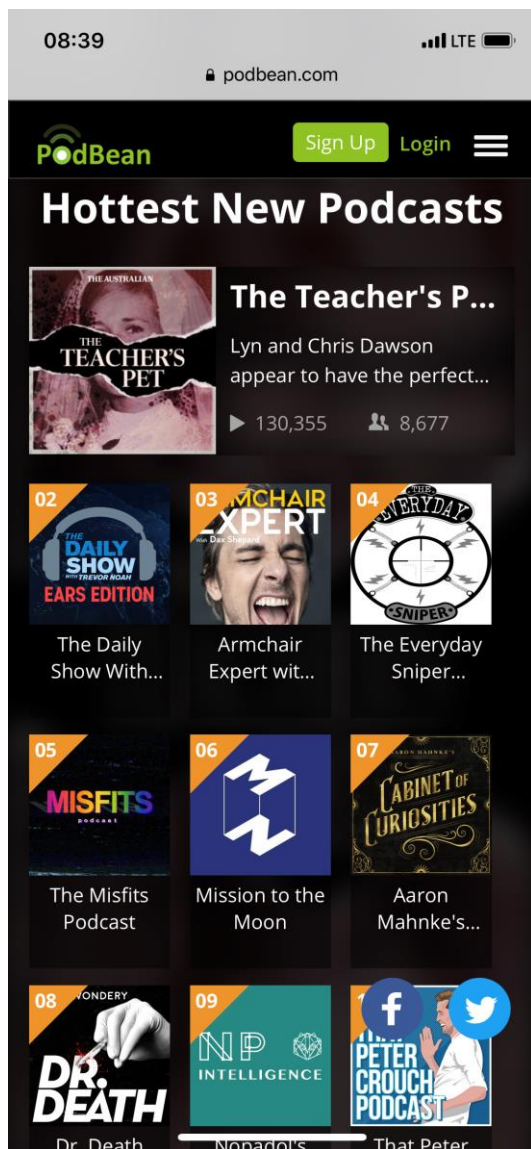

The Sniper's Hide Forum is running in overdrive. The smell of Scout has been wiped from the pages of the forum and we are busier than ever. With the increased traffic and influx of new members, it's as important as ever to protect yourself online. If you are a contributing member to the forum you can post ads for sale in our classified section. If you are not a contributing member with more than 100 posts you may purchase 101 posts under "[Upgrades](#)".

In the forum, discussions are moving fast and without the troll accounts found on Facebook. We are manually authorizing membership to keep certain elements off the site and this has made for a much more enjoyable and productive experience.

## Commercial Sales Account and Banner Ads

If you are a company conducting business in the forum, you must have a commercial sales account. The accounts are set up individually and allow you to sell directly to our membership. Companies providing customer service are exempt from this requirement. However, we have a lot of companies selling without being a paying member. Over the next few weeks, we will be addressing these accounts we see skirting the rules. An upgraded account is not a commercial sales account. Contact Lowlight personally to set this up.

## The Everyday Sniper Podcast

Are you a Podcast listener? The [Everyday Sniper](#) is the Sniper's Hide podcast and Podbean ranked us the #4 Top New Podcast for 2018. We post new episodes weekly, with over 130 episodes for you to catch up with. We have a lot of fun with the podcast and the members just love it. Thanks for all the great feedback, it's been a huge part of our success.

We were also voted #6 overall in Sports and Recreation, as well as number 6 in comments through the app. If you are into podcast, and love talking precision rifle, follow the Everyday Sniper on both Podbean and iTunes.

## **2019 Sniper's Hide Competition in Colville, Washington**

This year the Snipers Hide Match will allow both individual and team shooters. As always it will be a two-day match. Taking place in Colville Washington and hosted by Carl Taylor of In Motion Targets. This match will follow a similar format to the Karsetter Event held in the same area. Match Fee will be \$200 per shooter and registration will open shortly. The dates for the event are June 22nd and 23rd 2019. Compete as either part of a team or individually the choice is yours. This is a field event, so plan on walking and carrying your equipment from stage to stage. Older and Disabled Shooter can use transportation via a 4 wheeler if necessary.
